His style is heavy-a sort of solid mahogany style, but it is irreproachable. Interest is frequently interrupted by a rushing mass of irrelevant details. To the Editor: crushing mass of irrelevant details. Mallock describes everything—scenery, houses, rooms, people and ancestors. He quotes Parliamentary speeches and tackles debates. You feel you are a success when you have read the book, because it is so ponderous. He gives a few digs at prominent men, and I presume he is referring to Lord Rosebery when he says that "the winning of a horse-race by a peer, which is always associated with all manner of private profligacy, does far more to rouse the antagonism of conscientious Radicals.

Spanking in England. To the Editor:

I have a close acquaintance with hundreds of English educational establishments, but do not know of one in which young ladies would be shipped or spanked. Perhaps in some prepara- I don't see how that young lady that is going tory boarding school for children whose parents to be married can live on \$18 a month. She are abroad in India. &r., quite-little girls might will go out shoping and buy a lot of knickknacks be spanked in a motherly way occasionally for which she don't need, meet a lot of her friends childish misdemeanors, but I can assure you that the whipping of girls in boarding schools as an the month is past she longs for the durling to English custom is a myth.

Among the poorer classes in country villages a few switches tied together often hang by the fireplace or lie on the mantel shelf, and a merciance at the rod is sufficient to insure order and

whipping on her bare flesh to a girl of, may sixteen, just an abe would to a child of six, and i do not think more affection or respect for their arents is shown by any young woman than by he daughters of such worthy mothers.

Children's Hair.

Children's hair requires more attention than an adult's in the way of cleaning and washing. The best way to wash a child's head is on a rainy day, for then they have to stay in the house and can outfit. But, alas! the ones we want are be easily kept in a warm room until the hair is perfectly dry, so as to be free from a chance of taking cold. The best shampoo is a lather of warm soft water and pure castile soap. A little alcohol rubbed into the scalp assists the drying, and is a good stimulant as well for the hair. After washing the hair should be allowed to dry thoroughly before touching the comb or brush to it.
